

Contents:

| | |
|---|-------|
| Characterization and Typology of Aghien Lagoon waters (South-East of Cote d'Ivoire): Potential Resources for Drinking Water Production | 01-07 |
| Equilibrium Studies and Kinetics Mechanism for the Removal of Congo red by Passiflora Foetida Activated Carbon-Mno ₂ - Nano Composite | 08-14 |
| Synthesis and Characterization of Surface Modified Cellulose Nanofibers from Banana Peel | 15-19 |
| Kinetic and Mechanistic study of Oxidative Transformation of Some Amino acid by Pyridiniumchlorochromate in DMF-Water Medium | 20-23 |
| Extractive Spectrophotometric Determination of Trace Hg (II) in Eye Drops and Ayurvedic Medicines Using Pyridine 2-Carboxaldehyde 2-Hydroxybenzoylhydrazone | 24-31 |
| Assessment of Well drinking Water Quality in Samrab, Dardog and Hattab Communities, Khartoum North, Sudan | 32-37 |
| Determination of Heavy Metals in Selected Fish Species found in Kwalkwalawa River, Dundaye. Sokoto State | 38-42 |
| Synthesis of Novel Carbazole Based Diol Monomer and Its Photoconducting Polyurethane with Toluene Diisocyanate | 43-46 |
| Effect of Air Lead Pollution on Blood Bilirubin and Lactate Dehydrogenase Levels among Occupationally Exposed Workers in Main Sudanese Cities | 47-52 |
| An experimental evaluation of preparation of stock solutions and isolation of chelates from propyl and butyl alcohol | 53-58 |
