

Model Of Time Machine

Baba Raza Sopore, baramulla srinagar

Name: Yasir arfaat

Abstract

As in our lives development is going on we need more development to survive here for a long time this can be done by time machine. time machine will make our lives infinity and such a development can make us survive for millions of years.

Keywords : time , speed etc

Date of Submission: 18-08-2023

Date of Acceptance: 28-08-2023

I. Introduction

Time is a period of minutes, hours, days, etc.

Speed is the rate at which somebody/something moves or travels.

Infinity is space or time without end. Time travel is the hypothetical activity of traveling into the past or future. Time travel is a widely recognized concept in philosophy and fiction, particularly science fiction. In fiction, time travel is typically achieved through the use of a hypothetical device known as a time machine.

Future is the time that will come after the present

II. Main part

If a body travels a distance A to B not equal to 0 in 0 second then

Speed = distance / 0

Speed is equal to infinity

Therefore anywhere door or teleportation can be done if we reach infinity speed.

For infinity speed we need an infinity force, a material which will sustain infinity force.

For time travel if we travel distance A to B in less than 0 second i.e. negative second we do time travel in past and conversely we do time travel in future

i.e. mathematically,

Past time travel

Speed for past time travel = Distance between A and B / -1

Therefore,

Speed for past time travel = greater than infinity Speed

To reach a Speed like that we need a force greater than infinity and a material to survive such a force

III. Future time travel

Speed for future time travel = distance. Between A and B / +1

Therefore,

Speed for future time travel = smaller than - infinity

To reach such a Speed we need a force lesser than - infinity and a material which can survive that force.

IV. Results

In today's race if we made a time machine we will survive millions of years, now every possible mathematics is done the only thing which remained is that material is pending so it is a great achievement in today's life.
