

Contents :

Analysis of Tundish Casting with different Pouring time to improve the effect of Temperature and Velocity by Finite Volume Method <i>Sadanand Kumar Pandey, Ghanshyam Satnami, Dr. Vinay Kumar Yadav</i>	01-07
Empirical Linear Model for Compressive Strength of Sand-Quarry Dust Cubes and Blocks <i>Ihemgbulem Ezekiel. O</i>	08-15
Application of Ritz Analysis for the Building with Rigid Underground Stories: A Comparative Study to Common Approaches <i>Toshif Patel, Ravi Karkar, Abdullah Lala, Dr. Jigar Sevalia</i>	16-25
Study Of The Mechanical Properties Of Metakaolin Concrete Based On The Partial Substitution Of Cement In A Reference Concrete By Halloysite Clay From Balengou In West Cameroon <i>Valentine YATO KATTE, Amadou MOUNDOM, NDIGUI BILLONG, Soulé NJOYA, Thomas TAMO TATIETSE</i>	26-40
A Study on settlement and deformation characteristics of high speed railway with ballasted track and ballast less turnout Area <i>Minhaz Ahmed, Wang Xu</i>	41-51
Proposed Risk Matrix for Offshore Projects <i>Dr. Noran Mohamed Abdelazim, Y. Abdelmonem</i>	52-60
Analysis of Utilization of Pandand Fiber Biocomposite Materials as a Motorcycle Body Kit Using Impact Testing With Charpy Method <i>Eko Martono, Generousdi, Afrizal, Agung Mataram</i>	61-68
