(Botany Department, Science Collage, Banaras Hindu University).

Abstract: We already know there are many herbal plants around us in our daily life which can cure many diseases. For ex- *Paederia foetida* plant (which also known as – *Paederia foetida* which cure Jaundice from root when it titrated along with 7 solvents for ex- Absolute Alcohol, Rectified Spirit, Acetone , Benzene Ether solvent, Petroleum Ether, Water, CuSO₄, Phenolphthalein, Isopropyl, Methyl Orange etc. After heating it increases the power of its enzymes.

Keywords: *Paederia foetida* plant, Methyl Alcohol, Acetone , Phenolphthalein, Isopropyl , Petroleum Ether etc.

I. Introduction

We, firstly use as *Paederia foetida* plant an herbal medicine for Jaundice which can cure very fastly and simply by solvents and chemicals and then keep it for 7 to 10 days for titration. And it can doubled power is increased by mixing them then it cure Jaundice very fastly and easily.

Jaundice is a strong, liver diseases It is especially to it may lead to water pollution. Due to its extremely general germs like bacteria etc. Which effect our live. The Jaundice also has a effect of yellowish color.

II. Materials and methods

We firstly, take an plant for titration in 11 different chemicals given out different active principals of this plant in different chemicals which are in different amounts Absolute Alcohol (16 ml), Rectified spirit (18 ml), Acetone (17 ml), Benzene (13ml), Ether solvent (11ml), Petroleum Ether (10 ml), Water (9 ml), CuSO₄(7 ml), Phenolphthalein(14 ml), Isopropyl Alcohol(17 ml) and Methyl Alcohol (18 ml) put it for 7 to 10 days. Then mix them then put them for 7 to 10 days. Then we find an medicine for Jaundice by *Paederia foetida* plant.

We also tested in mouse blood before 7 days of given medicine. After 7 days also tested for check that our applied medicine work or not and we find positive report.

When it is dried then it do fast work because it have no power to not allow heat to it. Which is also called turmeric mala because of it's metabolic, mechanical enzymic and natural activities.

III. Result

As, a result we found an medicine of Jaundice by simple plant abstract of in different solvents and chemicals.

IV. Discussion

We always discuss about in laboratory for cure of Jaundice in different chemicals.

Indentation and Equation-

The equation is taken in the ratios of 8:0.

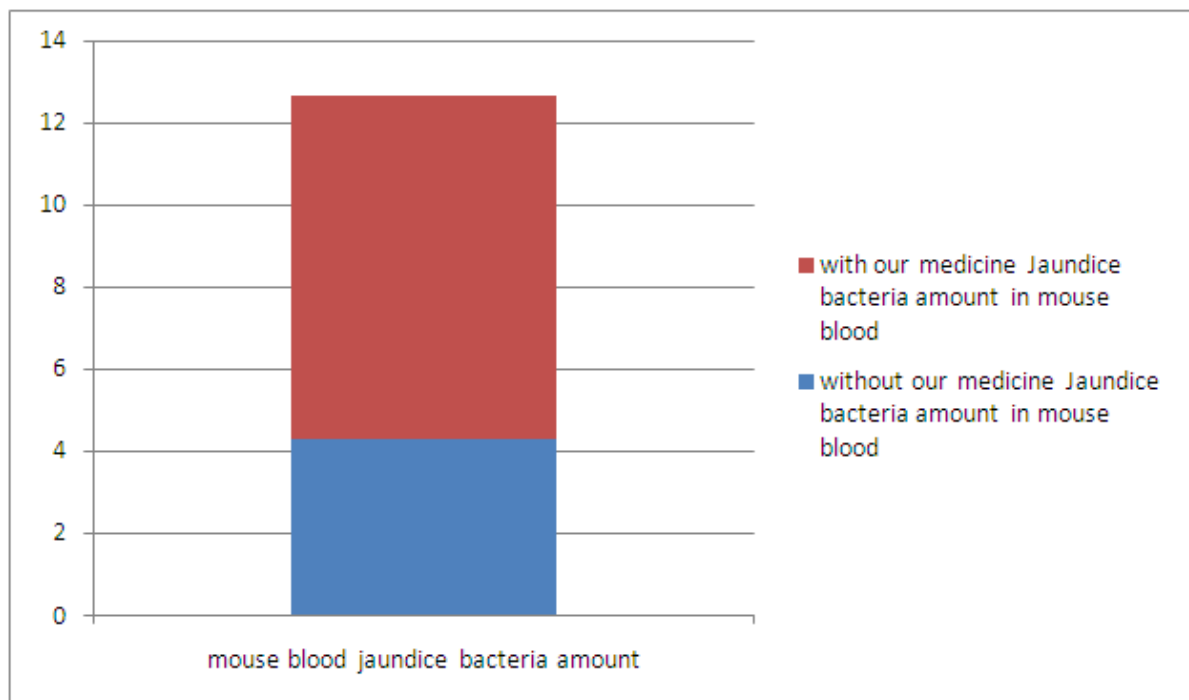

V. Figure and Tables

Paederia foetida

Paederia foetida mala

	without our medicine Jaundice bacteria amount in mouse blood	with our medicine Jaundice bacteria amount in mouse blood
mouse blood jaundice bacteria amount	4.3	8.4

Hemoglobin	18 g/dl	11.50-15.00
Packed cell volume(PCV)	59.2 %	36.00-46.00
RBC count	48.8 mill/mm ³	3.80-4.80
MCV	83 fL	80.00-100.00
MCH	24 pg	27.00-32.00
MCHC	39 g/dl	32.00-35.00
